

AI READINESS

Assessment Checklist for **Businesses**

TECHNOLOGY INFRASTRUCTURE

GAPS
IDENTIFIED!

Simple Steps to assess your

AI READINESS

Use this comprehensive checklist to evaluate your organization's AI readiness. It will help you identify critical gaps and outline actionable next steps to take before implementing AI solutions, ensuring successful deployment and maximizing your ROI.

How to use this Checklist?

- i Score each criterion on a scale of 1-10 (1 = Poor, 10 = Excellent)
- i Add notes about the current state and challenges
- i Identify action items for improvement in each area
- i Calculate subtotals by category to identify priority focus areas
- i **Optional:** Weight categories based on your organization's priorities

If your Total Score is	8-10 points	5-7 points	1-4 points
Your Organization	✔ Ready	⚠ Needs Work	🔴 Critical Gap

The AI Readiness Assessment Checklist

Readiness Criteria	Score (1-10)	Notes	Action Items
DATA READINESS AND QUALITY			
Data Availability & Accessibility Relevant data exists and can be easily accessed.	1		
Data Quality & Consistency Data is accurate, complete, and standardized.	1		
Data Governance & Framework Clear policies for data management and usage	1		

Readiness Criteria	Score (1-10)	Notes	Action Items
DATA READINESS AND QUALITY			
Data Integration Capabilities Ability to combine data from multiple sources	1		
TECHNOLOGY INFRASTRUCTURE			
Computing Power & Storage Adequate hardware/cloud resources for AI workloads	1		
Scalable Architecture Systems can handle increased AI processing demands	1		
Integration Capabilities AI solutions can integrate with existing systems	1		
Security Infrastructure Robust security measures for AI implementations	1		
TALENT & SKILLS			
AI/ML Technical Expertise In-house or accessible AI development capabilities	1		
Data Science Capabilities Skills to analyze and interpret AI outputs	1		

Readiness Criteria	Score (1-10)	Notes	Action Items
TALENT & SKILLS			
Training & Development Programs Plans to upskill the workforce for AI collaboration	1		
AI Project Management Experience Experience managing AI/technology implementation	1		
BUDGET & RESOURCES			
AI Investment Budget Dedicated funding for AI initiatives	1		
Long-term Financial Commitment Sustainable funding for ongoing AI operations	1		
Resource Allocation Framework Process for prioritizing and funding AI projects	1		
USE CASE & BUSINESS VALUE			
Clear Use Case Identification Specific AI applications aligned with business needs	1		
Expected ROI calculation Quantified business impact and return expectations	1		

Readiness Criteria	Score (1-10)	Notes	Action Items
USE CASE & BUSINESS VALUE			
Problem-Solution Fit AI is the appropriate solution for identified problems	1		
COMPLIANCE & ETHICS			
Regulatory Compliance Awareness Understanding of relevant AI regulations and requirements	1		
Ethical AI Framework Guidelines for ethical AI development and deployment	1		
Privacy & Data Protection Measures to protect sensitive data in AI systems	1		
ORGANIZATIONAL CULTURE			
Innovation Mindset Culture embraces experimentation and new technologies	1		
Data-Driven Decision Making Organization values and acts on data insights	1		
Change Adaptability Workforce is open to AI-driven process changes	1		

Have You Identified Critical Gaps in Your Assessment?

Don't let the gaps hold you back. Our experts can help you create a personalized roadmap to address the challenges identified.

What Next? Understanding Your Results

You've completed a comprehensive assessment of your AI readiness across 8 critical dimensions. Your results reveal valuable insights about the strengths and opportunities of your organization. However, interpreting these results requires expertise that considers:

Industry-specific requirements and regulatory considerations.

Company size and complexity factors that affect implementation methods.

Strategic priorities and timeline that influence technology choices.

Budget constraints and resource allocation optimization strategies.

Risk tolerance and compliance needs specific to your sector.

Don't leave your AI strategy to guesswork. Get a personalized analysis of your assessment results and a personalized roadmap for successful AI implementation.

Get Your Personalized AI Readiness Analysis!

Turn your assessment into an actionable strategy. Our AI experts will analyze your results and provide customized recommendations for your situation.

Why Partner with ScaleupAlly for AI Readiness & Implementation

Ready to transform your AI readiness gaps into competitive advantages? ScaleupAlly specializes in guiding organizations through every stage of AI adoption, from comprehensive readiness assessments to full-scale implementation and optimization.

Personalized AI Strategy

Custom roadmaps aligned with your business objectives and readiness level.

Cost-Effective Solutions

Maximize ROI with efficient, scalable AI implementations

End-to-End Support

From strategy to deployment to ongoing optimization and maintenance

Rapid Implementation

Proven methodologies to accelerate your AI deployment timeline

Risk Mitigation

Expert guidance on compliance, security, and ethical AI practices

Proven Track Record

Successful AI implementations across industries and company sizes
